INDUSTRIAL & OFFICE Pallets

 **Material**
High-quality Steel.

 **Weight**
Varies depending on pallet size and design.

 **Load Capacity**
Customizable based on client requirements.

 **Dimensions**
Customizable based on client requirements.

 **Decking Options**
Open or closed decking for versatile storage applications

 **Forklift Entry**
Multiple entry options for compatibility with different types of forklifts.

KHAMBATIS
SMART SOLUTIONS, STRONGER RESULTS

Durable and Corrosion-Resistant Storage Solutions

Galvanized Steel Pallets offer robust and long-lasting storage solutions for various industries. With a protective galvanized coating, these pallets excel in challenging environments, ensuring durability and corrosion resistant.

Key Features

Corrosion Resistance

Galvanized coating protects against rust and corrosion.

Durability

Constructed from high-quality steel for long-lasting use.

Versatility

Suitable for diverse storage needs and industry applications.

Environmental Adaptability

Ideal for both indoor and outdoor storage.

Ideal For...

Outdoor storage applications.
Industries with corrosive or challenging environments.

Efficient Vertical Storage Solutions

Stackable Steel Pallets are designed to optimize storage space by allowing vertical stacking. These pallets enhance warehouse efficiency and organization, making them an ideal choice for businesses seeking space-saving solutions.

Industrial Pallets Redefined:
Reliability in Every Stack by Khambatis

Key Features

Space Optimization

Stackable design maximizes vertical storage.

Versatility

Suitable for various industries and storage configurations.

Durability

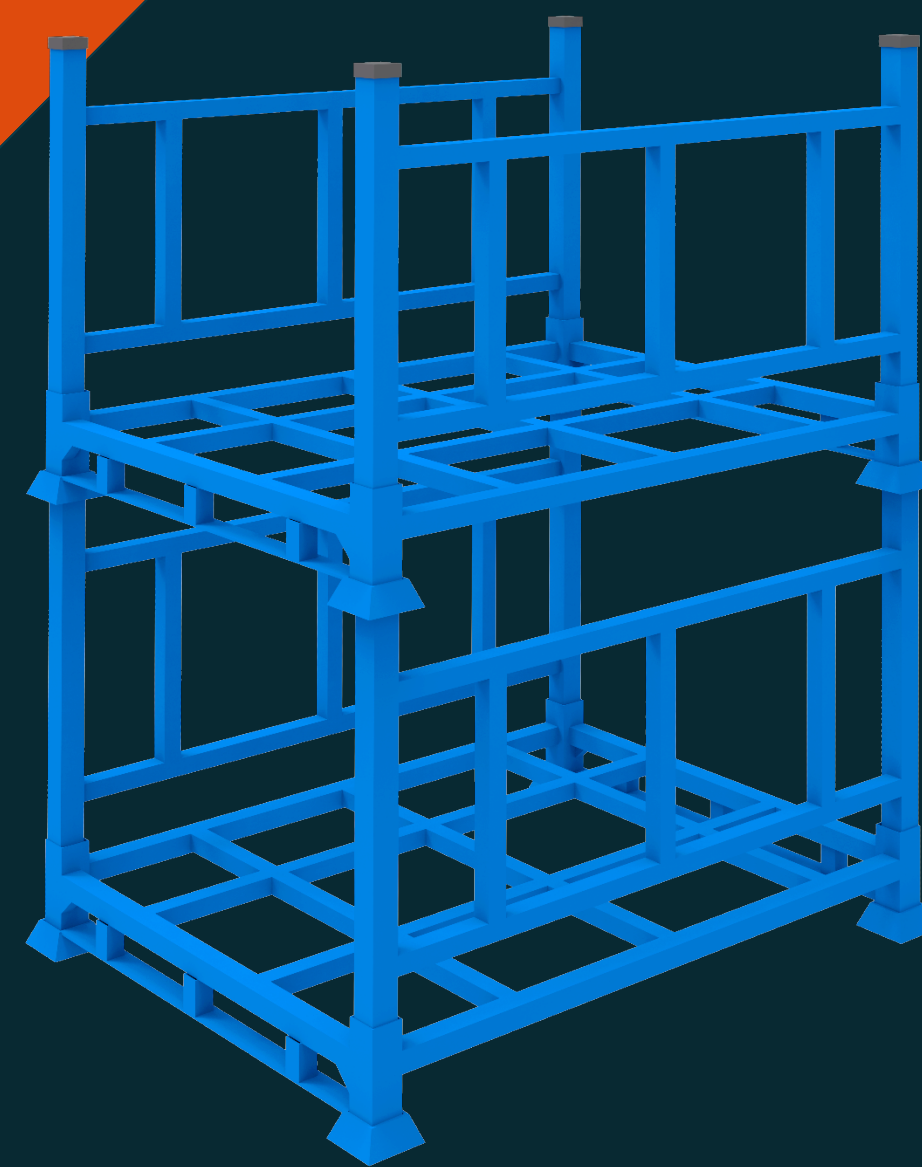

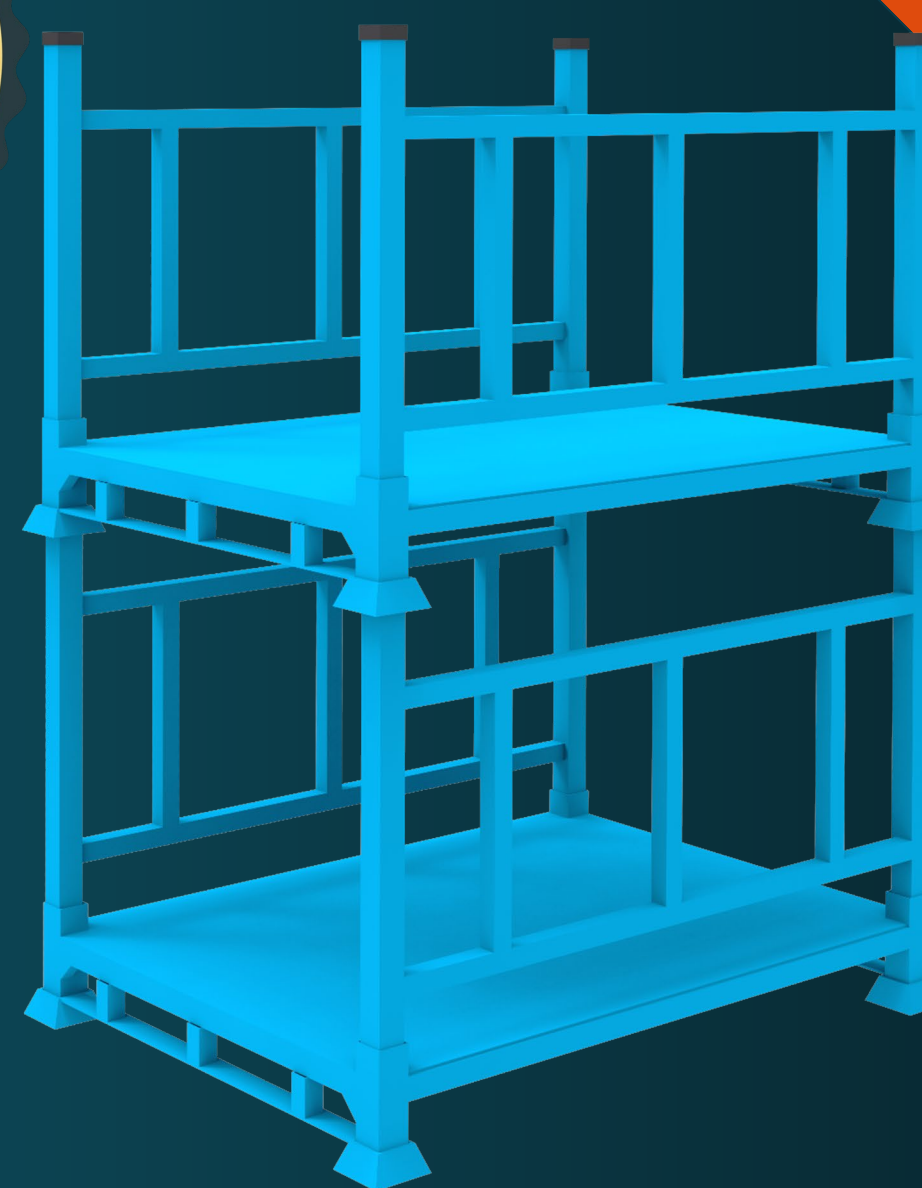

Constructed from sturdy steel for long-term use.

Cost-Effective

Efficient storage without the need for additional racks.

Ideal For...

Warehouses with limited floor space.
Industries prioritizing efficient space utilization.

Stackable Steel Pallets

Specialized Storage for Long and Heavy Materials

Steel Pipe Pallets are designed to safely and efficiently store long and heavy materials, such as pipes and tubing. Their unique design provides stability and ease of access, ensuring the safe storage of lengthy items.

Key Features

Long Item Storage

Tailored for the safe storage of pipes and tubing.

Stability

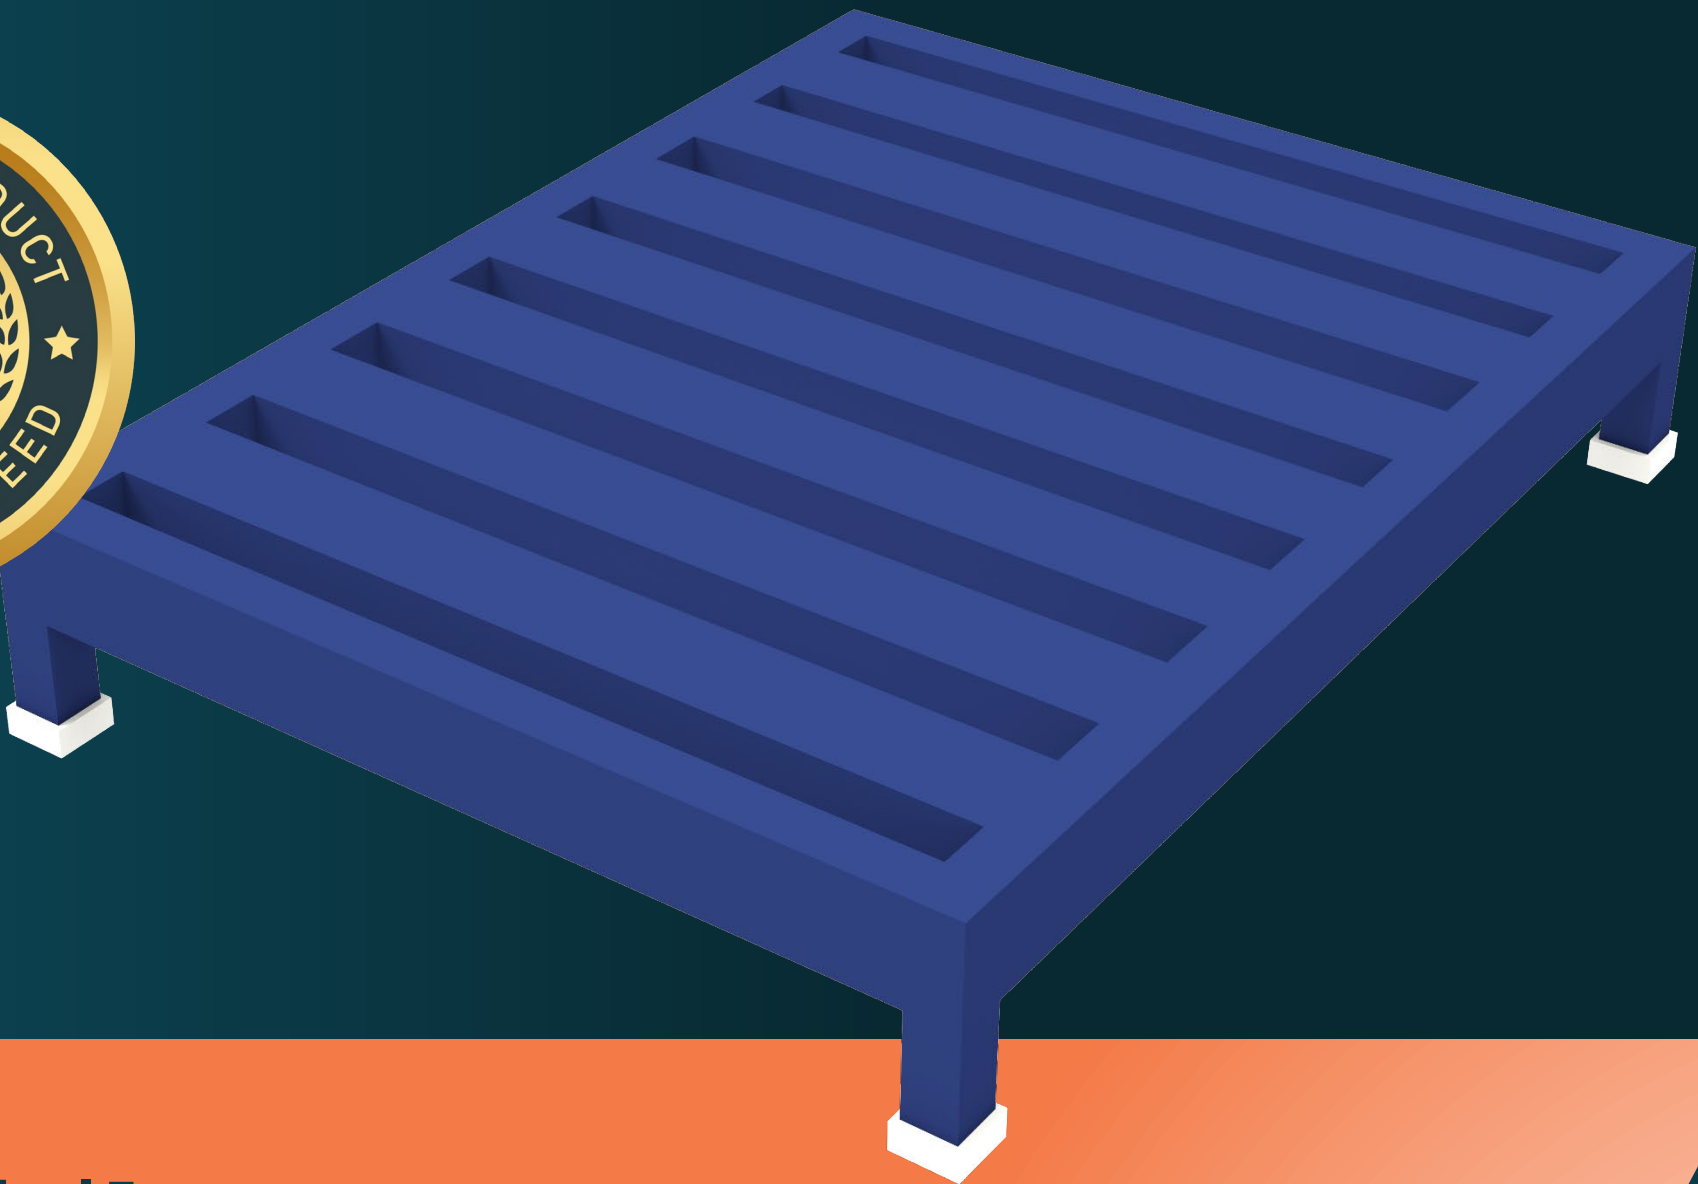

Sturdy construction provides support for heavy materials.

Accessibility

Allows easy loading and unloading of lengthy items.

Custom Configurations

Adaptable to various pipe sizes and weights.

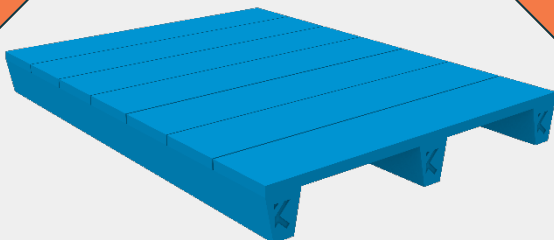

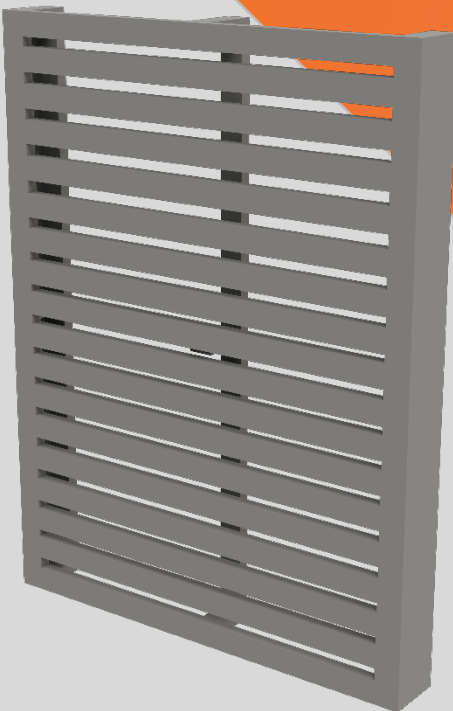

Steel Pipe Pallets

Ideal For...

Construction and manufacturing industries.
Businesses dealing with long and heavy materials.

Organized Storage for Small Parts

Storage Bin Pallets are designed to efficiently organize and store small parts and items. With integrated bins, these pallets streamline inventory management, making them ideal for industries with numerous small components.

Transform Storage with our Pallet Container Solutions.

Storage Bin Pallets

Key Features

Bin Integration

Includes bins for organized small part storage.

Accessibility

Easy identification and retrieval of small items.

Versatility

Suitable for a variety of industries with diverse small parts.

Space Efficiency

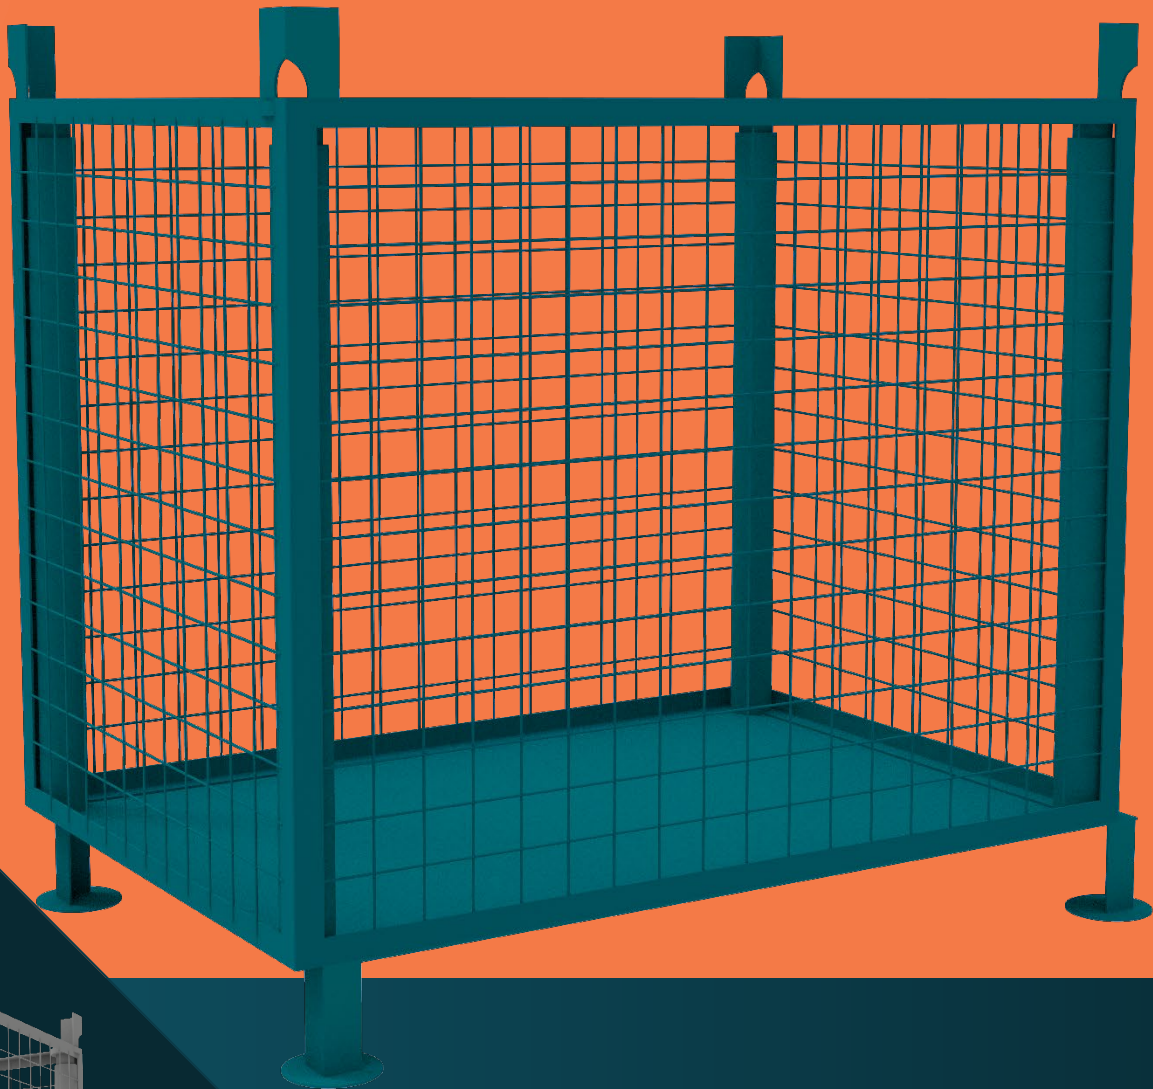

Maximizes storage capacity for small components.

Ideal For...

Manufacturing and assembly line environments.
Industries with numerous small parts and components.

Secure and Visible Storage Solutions

Cage Pallets provide a secure and visible storage solution, ideal for industries requiring containment and visibility of stored items. With a cage design, these pallets offer protection and easy identification of contents.

Key Features

- Containment**
Cage design secures stored items within the pallet.
- Visibility**
Allows easy visual identification of contents.
- Accessibility**
Facilitates easy loading and unloading of items.
- Durability**
Sturdy steel construction ensures long-lasting use.

Ideal For...

Transportation and logistics industries.
Businesses requiring secure and visible storage solutions.
